

Advanced Vineyard Systems

Seeking summer paid internship for the months of June through August (and September if interested in working through to harvest) for students interested in vineyard work. Duties will mainly be crop estimation tasks which will include cluster counts, cluster weights, and scouting throughout vineyards across the central Willamette valley. There will also be opportunities for some light duties in our custom grapevine nursery at the main office (located in McMinnville). We manage sites in and around Eola-Amity AVA to Chehalem Mountains AVA, and other sites scattered throughout Dundee and Yamhill- Carlton. We will discuss hourly pay and weekly hours, dependent on intern availability, upon initial interview.

If interested please contact our main office at:
